Gentlemen:

I oppose the draft M.O.U. being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

The services that I have needed to obtain from compound pharmacies are not available in my area; i.e., medications made with all natural capsules, no dyes, and unnecessary additives. I am chemically allergic to many additives that are in already manufactured medications.

Thank you for your consideration.

Sincerely,

(Mrs.) Ann Thompson
